Mount Lofty Rangers Inc.

About Us

The Club's aim is for its members to enjoy all aspects of owning and using our 4WDs while enjoying the diverse surroundings offered by this great country. We are a club of 4WD enthusiasts who enjoy challenging driving, regular trips, camping, camp cooking and a great social scene on and off track.

Membership

Membership is open to anyone who owns a 4WD (regardless of its make or model) and has a passion for driving. Mount Lofty Rangers Inc is an affiliated member of the South Australian Association of Four Wheel Drive Clubs (FWDSA).

Club Outings

The Mount Lofty Rangers provides regular day, weekend and extended four wheel drive trips, lead by experienced trip leaders. Trips are rated on the level of difficulty and are available to all members and guests.

The club has a dedicated social committee which also organises regular events that complement the club trips.

Experience and Training

Our current members possess a wide range of skills ranging from beginner to advanced. The club has a number of accredited instructors and assessors, and is involved in regular training via the SAAFWDC Driver Training Unit.

Meetings

Club meetings are the second Monday of each month* and are held at the **Blackwood Football Club, Trevor Terrace, Blackwood**

Time: 7:15 pm for 7.30pm start

*Except where this Monday falls on a long weekend then the meeting is held on the third Monday of the month.

For more information on the Club please check out our website at:

www.mountloftyrangers.com.au

Prez Sez

Quack, quack, quack!

I don't think I'd be the only one saying that even the ducks would be sick of all this wet weather, having said that it's great to see the flowers that have been posted on social media from throughout the desert, it's also great to hear that dams that haven't been full for years are now overflowing.

This time of year usually sees our members either head north to some better weather or hibernate and dream of their next trip. How far out should you plan a trip? That all depends on lots of things - destination, time of year, number of vehicles, costs involved to name just a few. I dare say you would have heard of the trip to Namibia and Botswana we have down for 2018 that's right 2018! Although only having been there in 2015 - the amount of work Lothar and Sheena have put into 2018 already has to be seen to be believed, we had a info meeting the other week for the 12 couples that are interested in going and if anyone was unsure if they were going or not, they would have left the meeting convinced that this is a once in a lifetime adventure and they need to start saving! Although I thanked Lothar and Sheena on the day - thanks again for your work on this, Tanya and I as well as the other attendees surely appreciate it and can't wait.....

Talking trips, as the weather improves you'll find more and more trips go up on the board, if you can't make it to the meetings, why not keep up to date with the upcoming trips on our website. I know there are a number of varied trips currently up but I'll highlight a couple that I'm trip leading that are on the board already - Camp Cook, share your camp oven concoction with all, why not try something new? at Steve's place at Ashbourne (Sept 10) - Teusner Wines pig on a spit, see advert in magazine (Sept 24) - MLR Christmas Show at Wirrina Holiday Park (Sept 26) more information coming. Well, it's time to unleash the beast, this will be the first real 4wding I've done since we've had my car back.....So I'll put a trip up at the club meeting for weekend of Saturday 27 and Sunday 28 August at Jakem Farm - why not join us for a bit of 4wding, campfire and socialising, I'll have more info and cost at the meeting.

Our annual Beachport Australia weekend trip is under six months away, the 26th falls on a Thursday so the trips will run Thursday, Friday and Saturday with most heading home on Sunday - so we need trip leaders, social convenors (to organise get togethers like happy hours and fire pit if allowed). Have you got your site booked?

I nearly forgot we still need a Secretary! See you at the meeting....

Driver Training Unit

2016 Training program

The training courses listed below are for the remainder of 2016.

If you know of other club members that may be interested in the training please pass this information on to them.

Allan McIntyre

DTU Chairman

0403582134

4WDSA Driver training unit

Upcoming courses

- **Practical Driving – mud and water at Ashbourne (near Strathalbyn) on 18-19 June**

This event is specifically designed for inexperienced drivers, the mud is not particularly

Please enrol by 4 June

- **Basic Driving and Recovery theory training course**

This course is made up of:

Theory training weekend on 13-14 August followed by a practical driving weekend at Ashbourne on 20-21 August

- **Practical Driving – mud and water at Ashbourne (near Strathalbyn) on 20-21 August**

You may also nominate for this practical driving event at Ashbourne without doing the th

- **Trip planning and leading at Cavan on Sunday 16 October**

- **Practical Driving – sand at Peake on 5-6 November**

- **Oziexplorer/GPS – Cavan 12 or 13 November**

Note this is a one day course with choice of either date

Course costs

The course costs are very good value for what you receive. For the practical driving events you receive one on one training and assessment in your vehicle by a DTU Training person.

The DTU reimburses their Training Officers for their fuel costs so this is part of the cost you pay and the other is the property access fee paid to the landowner as most of our training venues are private property.

To do the Basic Driving and Recovery course and the practical training events you will need to purchase a set of training manuals which consists of a comprehensive reference manual and a training checklist.

Training manuals	\$60
Basic Driving Theory weekend at Cavan	\$20
Practical training weekend at Ashbourne	\$90
Practical training weekend at Morgan	\$50
Practical training weekend at Peake	\$90
Trip Planning and Leading at Cavan	\$20
Oziexplorer / GPS training at Cavan	To be advised

HOW to NOMINATE for a course

- Send an expression of interest for the course by email to dtuttraining@4wdsa.asn.au providing you contact details and which club you are a member of.
- Pay the fees for the events you have nominated for plus the purchase cost of manuals if required. (payment is required before the course commences)

To purchase training manuals

To purchase a set of training manuals email dtuttraining@4wdsa.asn.au and we will send you an application form

Alternatively you can organise the purchase of manuals through your club DTU representative, if they have one. If you have any questions contact Allan McIntyre on 0403582134.

DTU account details for electronic transfers

Account Name	Four Wheel Drive SA

Use the account name exactly as listed above.

Please put in your initial, surname and brief reference so we can identify who has paid.

4WD Training with 4WDSA gives you confidence to travel to remote areas

4WDSA through their driver training unit offer a comprehensive training program to safely improve your skills in driving and recovery.

Starting with basic operation and maintenance of your vehicle through to driving in all types of terrain and in the event of the getting stuck how to safely recover the vehicle. Throughout the course the emphasis is on learning safe and effective skills to enable you to enjoy your hobby to the full.

The training is conducted on a one on one basis with a nationally accredited instructor who is a member of a 4WD club and volunteers their time for the training. Therefore our fees are very low and include only your reference material, a reimbursement for trainers travel costs and property access fees if applicable.

Note: 4WDSA driver training is conducted in association with a registered training organisation which means that upon completion of the requirements in the assessment checklist you will receive a nationally accredited training certificate. However attainment of the certificate will require several weekends of training and assessment depending upon aptitude and previous experience.

Book your function with us!

OPERATING MANUAL NEEDED

COMPENSATING FOR SOMETHING???

FUNNIES

Hey guys be careful what you read.....

The husband had just finished reading a new book entitled "You Can Be the Man of Your House." He stormed to his wife in the kitchen.

"From now on you need to know that I'm the man of this house and my word is law! You will prepare me a gourmet meal tonight, and when I'm finished eating my meal, you will serve me a sumptuous dessert.

After dinner you are going to go upstairs with me and we will have the kind of sex that I want.

After that, you are going to draw me a bath so I can relax. You will wash my back and towel me dry and bring me my robe. Then you will massage my feet and hands.

Then tomorrow, guess who's going to dress me and comb my hair?"

The wife replied, "Er... The funeral director would be my guess!!!"

FUNNIES

Two old friends were just about to tee off at the first hole of their local golf course when a guy carrying a golf bag called out to them, "Do you mind if I join you? My partner didn't turn up".

Sure, they said, you're welcome.

So they started playing and enjoyed the game and the company of the newcomer. Part way around the course, one of the friends asked the newcomer, "What do you do for a living?"

I'm a hit man," was the reply.

"You're joking!" was the response.

"No, I'm not," he said, reaching into his golf bag, and pulling out a beautiful Martini sniper's rifle with a large telescopic sight. "Here are my tools."

That's a beautiful telescopic sight," said the other friend, "Can I take a look? I think I might be able to see my house from here".

So he picked up the rifle and looked through the sight in the direction of his house.

"Yeah, I can see my house all right. "This sight is fantastic. I can see right in the window. Wow, I can see my wife in the bedroom".

"Ha Ha, I can see she's naked!! Wait a minute, that's my neighbour in there with her.....He's naked, too!!! The bitch!"

He turned to the hit man. "How much do you charge for a hit?"

"I'll do a flat rate, for you: One thousand dollars every time I pull the trigger."

"Can you do two for me now?"

"Sure, what do you want?"

"First, shoot my wife; she's always been mouthy, so shoot her in the mouth. Then the neighbour, he's supposed to be a friend of mine, so just shoot his dick off to teach him a lesson."

The hit man took the rifle and took aim, standing perfectly still for a few minutes.

"Are you gonna do it or not?" asked the friend impatiently.

"Just be patient," said the hit man calmly

"I think I can save ya a grand here."

Are you ready for CAMP COOK????

CAMP COOK PREPARATION

HEAT CONTROL TIPS FOR CAMP OVEN COOKING

1. Pre-Heating your Camp Oven

While it is not necessary, placing your camp oven near the campfire while you are preparing your ingredients this will help warm up the oven ready for cooking.

2. Understanding Heat Placement for Cooking

If you are unsure if you need bottom or top heat, just picture how you would prepare the dish at home.

If you're placing a pot on the stove top, then you just need bottom heat.

If you're putting the dish into the oven, then you need top and bottom heat on the Camp Oven.

Bottom Heat

Bottom heat is perfect for cooking wet dishes like stews, chillies, soups, casseroles or even boiling water.

Top and Bottom Heat

Top and bottom heat is ideal for cooking meat, poultry, potatoes, vegetables, bread, damper, cakes and more.

CAMP COOK PREPARATION

2. Understanding Heat Control

Heat control is something everyone struggles with when they start camp oven cooking. Just remember **if you start off too hot too soon you will ruin the food**. It's best to work up to the right temperature.

So basically start off with less heat and after ten minutes check it, if you think it's not hot enough add a few more coals until you think you have it at the right temperature. I'm sure you would rather wait ten more minutes for it to be ready than have to run to Maccas ?

When cooking with an open fire don't place your camp oven directly on the camp fire. use a shovel and take the coals you require and place them on your camp oven. Doing this will allow you to be able to better manage your heat control.

It's best to make your camp fire with good dry hard wood, as the coals tend to stay hotter for longer and require less coals and management. However If you don't have access to good wood you will still be able to cook with those coals it will just mean you will need to use more coals and you might have to change the coals more often.

If you are cooking food that takes a few hours, just remember to change the coals when needed.

NGARKAT Working Bee

NGARKAT CONSERVATION PARK

Cox's Mill Campground Upgrade Working Bee

13th & 14th August 2016

WHAT: Within the Ngarkat CP, Cox's Mill campground is about 4km east along the track from the Pine Hut Soak campground to the Border Track intersection. It is directly adjacent Cox's Windmill, a relic from the pastoral days of the area. Cox's Mill campground has been used for many years as an ad-hoc campground for 4WD enthusiasts who are preparing to traverse the Border Track. Recently, DEWNR^[1] and the 4WDSA Border Track committee planned an upgrade to the ad-hoc nature of the campground. This involved creating a separate entrance and exit to the campground and re-aligning the Pine Hut Soak track just away from the entrance to the campground. This work has just been completed by heavy equipment sourced by DEWNR.

Remaining to be done in this Working Bee is setting the boundaries of the campground using fencing in a similar manner to that at the Pine Hut Soak campground along with any residual clearing of vegetation. Fencing materials have been funded directly by DEWNR and through grant funding obtained by the 4WDSA Border Track committee. DEWNR will provide any specialist tools needed for the work; volunteers will need to provide basic hand tools and their labour.

WHEN: Weekend of 13th & 14th August 2016. Work starts at 9am on the Saturday, but you may setup camp on the afternoon or evening of the preceding Friday.

WHERE: Meet and camp at the Ngarkat CP Pine Hut Soak campsite (S35° 25' 20" E140° 52' 46").

See the map overleaf.

Directions: Heading south from Tailem Bend cross the railway overpass, turn left onto the Mallee Highway; drive through Lameroo, Parilla and past the T-Junction to Bordertown (do not turn at the T-Junction), 5km west of Pinnaroo turn right on to Rosy Pine Lane (Ngarkat Park sign at this point, see RAA map 'Upper South East ref: J2), continue south for approximately 17 km. The Pine Hut Soak campsite is located just inside the Park entrance.

WHAT TO BRING:

Camping: Camper trailers and caravans can be accommodated. The site has one very good long drop toilet but you need to bring everything else (water, food, shelter). You may like to bring wood for a campfire as the working bee date is well outside fire danger season.

Equipment:

Tools Post hole digging tools, pruners, loppers, bow saw, handsaw, shovel, rake, hand tools, battery powered electric drill with a range of drill sizes and spade bits, battery powered angle grinder with thin metal cut-off blades.

UHF In car and handheld UHF radios will be useful; Channel 16 will be used

initially.

Personal Working gloves and footwear, drinking water, sun protection (hat, long sleeves, long pants, sun screen).

Bring high visibility vests or clothing and possibly share them with your fellow workers.

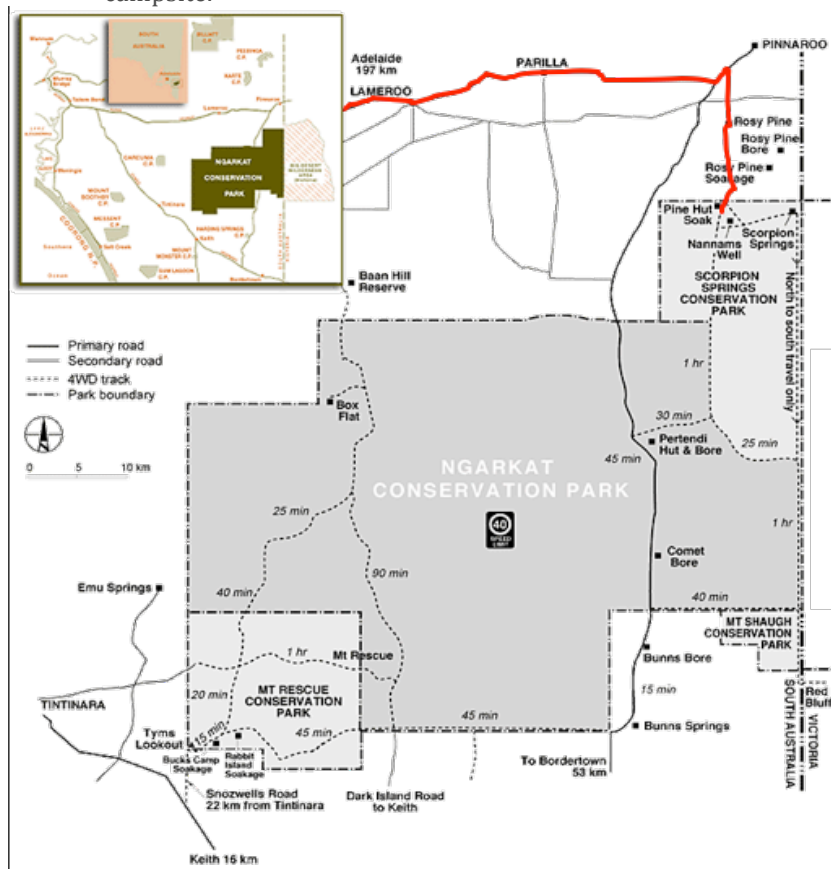

CONTACT:

Darryl McManus - e-mail ddaajmcm@bigpond.net.au, Mb. 0488 275 300

Satellite phone: 0424 212 534 for Emergency incoming & outgoing calls during the working bee.

Important Note - let us know in advance:

- Contact details for your group.
- When you plan to arrive.
- The number of people and vehicles in your party.
- If you can bring a trailer that could be used to transport materials from the campsite.

REDARC®

THE POWER CONVERSION SPECIALISTS

Redarc Electronics

Based in Lonsdale, South Australia, Redarc has over 30 years experience in the research, design, development and manufacture of a range of electronic voltage converters and associated products including inverters, power supplies, battery chargers, CANBus modules, turbo timers, glow plug timers, trailer braking products and customised electronic modules.

Essentially, Redarc's products are attached to any moving vehicle that uses battery power including cars, boats, rail, trucks, mining equipment, bus and emergency vehicles.

REDARC's goal is to ensure that the REDARC product and service is the benchmark by which the competition is measured.
