Well...subject to the AGM this could be my last submission as President into the magazine. As such, I would like to take the opportunity to provide my *sincere thanks* the outgoing committee for their assistance over the last 15 months. I would like to thank them for remaining part of the committee in caretaker mode due to our May AGM being postponed. As you know, we are all volunteers and we execute the roles to the best of our abilities, with the skill sets we have, in order to provide you the members with a club that you can be proud. I would like to extend a special thanks to those members who have elected not to renominate to continue for the next 12 months (actually 9 months now) with a special shout out to Paul McGregor who has been our Treasurer since Adam was a lad, I believe it's over 10 years (happy to be corrected). Thank you Paul your service to the club is appreciated. To the remaining members not nominating THANKYOU.

As we look forward to the 2020/21 year, I wish the new committee all the best and hope every member will provide them with the support they require. I would like to remind you all that nominations for all positions less VP and Secretary are open. If you want to help drive the club forward consider nominating for any of the roles, forms will be available at the AGM. Once again thankyou to all.

Our camp cook held during the month was a success, with the weather being kind to all for the evening although it was a little damp in the morning for pack up...the joys of camping. Our first meeting since March was great, although numbers were down on our average, which was to be expected, more attended the July meeting than our last pre COVID meeting in March.

Just a few reminders to round out this article:

- Memberships are due. Please renew and show your commitment.
- Beachport sites are still available (not many) I will be handing back sites the end of Sep. For those who have a site don't forget to pay your deposit directly through the caravan park.
- Our annual dinner and awards night is filling up. Please register and select your meals via our webpage. Note, there are quite a few people to be recognised this year so it would be great to show our appreciation with a large attendance.
- Loftyfest planning has firmed up, I sent out information during the last week. If you have not done so check your emails, our website or facebook page. We will be doing an electronic trip sheet / registration via the page we have created on our website. Don't forget to register.

Take care of yourself, and those around you – stay safe!

New Age HF Radio Communications

Many people have heard of High Frequency (HF) radio and the benefits it offers for long distance communications from anywhere in Australia. Exams and qualifications to use this type of radio are not required nor is the technology old fashioned.

Anyone can have a HF radio and become licensed to transmit simply by becoming a member of Austravel SafetyNet.

The HF radio band is a major part of the shortwave band of frequencies, so communication at these frequencies is often called shortwave radio. Because radio waves in this band can be reflected back to Earth by the ionosphere layer in the atmosphere, a method known as "skip" or "skywave" propagation. With Austravel's range of frequencies, the network is suitable for communications over long and short distances.

You can communicate over long distances directly from your vehicle.

This is very different to UHF CB radio.

How Much is Your Safety Worth?

Annual membership fees are less than \$2/week which includes your license, SMS, Phone Calls, GPS logging etc... that's right, all the additional services are included in your annual membership fees.

HF radios are readily available new and second hand from a number of different suppliers throughout Australia wide dealerships.

Some travellers already have HF radios and can achieve these extra features just by adding the Austravel network to their existing radio. This does not interfere with any pre-existing HF network.

For further information or to join the Austravel SafetyNet, contact the membership office:-

For Your Safety when Travelling in Remote Australia

Long Range (HF) Radio with an Advanced Safety Edge

The only Australian HF Network with the Out-n-About™ App

- Send an emergency call for assistance.
- Direct dial phone calls over the Austravel HF radio network.
- Mark with GPS, travel locations on the map.
- Friends and family can follow your travels and send text messages to your vehicle radio anywhere.

HF Radio Emergency Call

Emergency Call is possibly the single most important benefit of the Austravel SafetyNet Telcel™ system, and as importantly, its simplicity.

By depressing a single button on the HF Radio, or sending a telcel/GPS call to a single number any user can call for emergency help response easily.

- Emergency Call can be used for general help or life threatening emergencies.
- Extensive knowledge of operating the radio is not required to make an emergency call. (A partner can make a call) with the single button press on certain radios.
- The team of Austravel emergency responders across Australia are notified by SMS automatically from your successful radio emergency call. They will talk to you on the radio to help shortly after your emergency call is completed.
- Austravel SafetyNets' H.E.L.P. (HIS?) emergency response system is unparalleled for its simplicity and depth of response, no other HF network has this type of capability.

Some people believe that a mobile phone will make an emergency 000 call from anywhere and therefore a HF radio is not necessary. Triple zero will not work when that 75% of the Australian

The Value Added Proposition

High Frequency (HF) long-range radios on the Austravel SafetyNet are capable of accessing an extensive Australia-wide base network, enabling communications and telephone interconnect, from rural and outback locations where a mobile phone will not work. (That's a fact)

Austravel recently introduced state-of-the-art technology, known as Telcel™, which can be used in conjunction with the Out-n-About™ mobile phone app. Its "where HF meets 40 in the bush" providing a technical life with HF radios and the mobile phone networks.

This revolutionary system connects your HF radio with satellite navigation and into-polines with services such as map position marking, text messaging, direct SMS to any mobile phone and telephone direct dial interconnection. Telcel™ and Out-n-About™ provides a map display (if you choose) for family and friends of your camping locations, no matter where you are in Australia. No need to contact them every day to say you are OK but you can if you wish to, via radio telephone or radio SMS.

Why Do You Need HF Communications?

A recent Australian Government report stated that 75% of the landmass of Australia has no mobile phone coverage; therefore most of any recreational traveller's time is spent out of direct contact with family, friends and emergency services.

Today's HF radio user can make an emergency call for help, mark their GPS positions on a map, send text messages to the radio mailbox system, SMS any mobile phone or make a phone call from anywhere in Australia.

Family and friends with the app on their mobile phone or tablet can view GPS locations of partnered Austravel members and communicate to those radios by text. They do not need Austravel SafetyNet membership to run the Out-n-About™ mobile phone app. Members using the app can log positions by radio in Australia or phone and it works all over the world where you have data access.
